The Laggan & Sorn District Salmon Fishery Board

Notes to the financial statements Year ended 31st March 2018

1. General information

The Laggan & Sorn District Salmon Fishery Board is an unincorporated organisation, constituted under the Salmon Fisheries Legislation.

Basis of preparation

The financial statements are prepared under the historical cost convention and in accordance with applicable Accounting Standards.

The financial statements are prepared in sterling, which is the functional currency of the entity.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

Turnover

Turnover is the assessment levy received by the organisation during the year, the amount charged each year is a factor of the rateable value of the proprietors of Salmon Fisheries in the Laggan & Sorn District.

Taxation

Assessments made on proprietors under The Salmon and Freshwater Fisheries (Consolidation) (Scotland) Act 2003 (as amended) are not chargeable to tax. Investment income, where received, on bank or other deposits is normally subject to Corporation Tax at the appropriate rate.

Financial instruments

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.
